

VEGAS-GELLYBALL SAFETY PRESENTATION

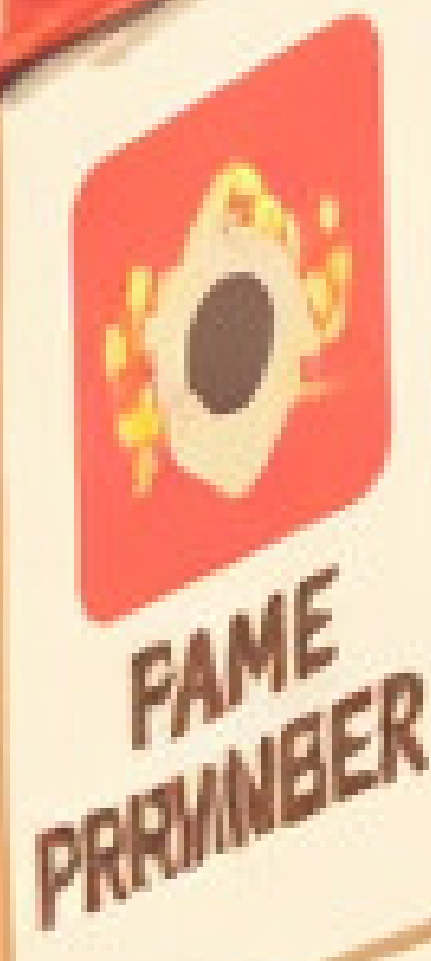

Before any GellyBall game, safety always comes first! We want everyone, kids, parents, and friends, to have fun and stay safe.

SAFELY

Our Fun Officers will show you all the important rules to keep the game safe and super fun for everyone.

First, always pretend your blaster is ready to shoot. Only aim at other players during the game, never outside the play area.

Keep your blaster off until a Fun Officer says 'Game on!' This stops any accidental shots before the fun even starts.

Artist's signature and a small circular logo.

Always look where you are shooting! Never fire at someone who isn't facing you, and always check behind your target.

Keep a safe distance of 6 to 10 feet from other players when you shoot. No up-close shots, ever!

You must always wear your safety helmet or goggles in the arena.
Keep them on until you're completely out of the play area!

If you get hit, be honest! Raise your blaster, jog to the perimeter, and don't take your helmet off until you're out of the arena.

If your blaster has a problem, bring it to the table. A Fun Officer will help you fix it or give you a new one!

FurCool/Ball

Our safety gear is cleaned after every use, so helmets and masks are fresh for every player!

GellyBall is super safe! The gel balls are soft, biodegradable, and don't leave bruises or stains.

If you don't follow the rules, you might have to sit out for a game.
Let's all follow the rules and keep playing!

Parents, you can relax! Our team puts safety first, so your event will be worry-free and full of smiles.
